

Puerto Rico Primary Care Health Center Sites

- **Delivery Site:** location where the primary care services are delivered. **Note:** a grantee or main organization could have more than one delivery site.
- **Main organization:** Grantee site location. Part of the Consolidated Health Center Program.
- **Consolidated Health Center Program** combines Community Health Centers, School Based Programs, Health Care for the Homeless Programs, Migrant Health Programs, and Public Housing Primary Care Programs entities. In Puerto Rico there is not a Public Housing Primary Care Program. The basic funding for health centers is awarded under section 330 of the Public Health Service Act.
- **Health Care for the Homeless Grantees (HCH)** (section 330(h)), which provide services to homeless individuals and families within the service area.
- **School Based Health Centers (SBHCs)**- Community-based health care providers collaborate with school systems to establish and implement SBHCs that provide comprehensive primary and preventive health services.
